

INVERLOCH SURFSIDE

your holiday retreat

OFFICE HOURS

(SUBJECT TO CHANGE WITHOUT NOTICE)

Office Hours

Open 10.30am to 3pm

Closed Thursday

For emergencies only, press the residence buzzer or phone 0416 030 734.

Please note: ice, gas exchange, sporting equipment hire or change for dryers/washing machines do not come under the banner of 'emergencies'.

EMERGENCY!

Emergency services have 24-hour access to the park and if you have a need to call police, ambulance or fire services, you should do so. However, please remember to notify management immediately after making the call.

It is important that we are aware of what's going on in the park both for your safety and the safety of others.

Hi Everyone,

What a wonderful time we experienced at the park over the Christmas and Easter periods with a great deal of fun had by all.

We were excited by the addition of the newly renovated Beach Shack which gives us the opportunity to play table tennis, Xbox, movies and do craft with plenty of room to spread out and enjoy the new facility.

Another new addition to the park is our cinema screen on the oval. We had three movies go to air during the summer, with large numbers enjoying the outdoor entertainment the cinema now provides.

New years eve was celebrated with site holders spread out across the oval enjoying the music played by DJ Scott., there were some great moves out on the dance area and some fine vocalists joining in the celebration.

The front boundary fence gives the park a facelift upon entry with many site holders and neighbours commenting on how good it looks.

In this months newsletter we have many pictures of the events held at the park, we thank everyone who participated to make park life that little bit more special.

Thanks Paul and Janice

WELCOME TO SURFSIDE

Our newest members of the Surfside family are:

Roger and Carole Banham and family
Ryan Bracker and Nicole Foss and family
Rebecca and Andre Burton and family
Tiziana and Brian McKenzie and family
Travis and Simone Robbins and family
Kristian and Mark Askew
Patricia Dowling, Nigel and Carmen Lees and family
Jozsef and Kelly Toth and family
Nadine and Todd Blazely and family
Anthony Jackson and Daniele Solomon and family
Lawrence and Hayley Coutts and family
Mathew and Angie Rennison and family
Solveig Twomey and family
Glenn and Rebecca Little and family
Ben and Alyce Georgiou and family
John Zakhem and Melissa Mueller and family
Linda McCoy and family

Please make them welcome.

TWILIGHT TUNES

A great big thank you to Terry, David, Dan and Asha for providing equipment and entertainment for us. It is much appreciated.

CRAFT CORNER

Craft mornings have been a great success. The first session, conducted over the summer holidays was outside on the picnic tables near the play ground, we all had a lot of fun making our little bat friends. Over Easter we were able to have craft in our newly expanded beach shack, so much space for everyone to create some beautiful art works. Thank you to all the parents and children who come along and support these craft mornings.

SITE AUDITS

Site audits will be carried out in August, 2022.

Can all site holders please ensure they are cleaning gutters, removing cobwebs, painting where required and washing down your vans and cabins.

VISITING TRADES

All site holders must give prior notice to management that they authorise the handing out of keys prior to the arrival of visiting trades and services. This can be done in person, by email or phone call. All spare keys now need to be signed in and out of the office.

PAYMENT VIA DIRECT TRANSFER

When depositing money into Surfside bank account, please always use your site number and surname as the reference.

By using these two references, it will allow your payment to be allocated correctly.

EASTER

Numbers continue to grow each year for our Easter Egg Hunt, with many new families joining us. Once again we had a beautiful sunshine drenched morning.

The Easter Egg Hunt was a little different compared to past years, in that we had stations set up around the park. At each station our parent helpers supplied some Easter Eggs along with a clue to take the kids to the next station. There were a total of five stops including the last at reception, where the bulk of the Easter eggs were passed out to all hunters.

We could possibly make this a time trial with some of the older kids making very quick work of the hunt, although a little short of breath.

It was lovely to see family groups working with younger ones to figure out the clues together and make their way around the park.

Thank you so much to our parent volunteers, as we rely on you to help make our new format successful.

Inverloch Surfside Easter Golf Tournament

2021

Stableford
Points

Overall Winner:		David Meehan	38
A Grade: (Handicap 0-13)	1	Matt Bowey	30
	2	Michael Simonds	27
	3	Boris Anderson	26
B Grade: (Handicap 14-26)	1	Peter Bates	33
	2	Dean Bates	31
	3	Paul Milo	30
C Grade: (Handicap 27-36)	1	Riley Hilder	35
	2	Nick Hilder	33
	3	Richard Tregunna	32
NAGA		Russell Hodgson	17
Longest Drive: 1st		Dean Bates	
Longest Drive: 10th		Michael Simonds	
Nearest The Pin: 4th		David Meehan	
Nearest The Pin: 14th		Paul Milo	
Nearest The Pin: 16th		Richard Tregunna	

Once again a big thank you for lots of prizes donated by Paul Sherman, Boris Anderson, Dennis Castaldi, Matt Bowey, Nick Hilder, Darrin Button and many golf balls from Ash Forde.

On behalf of the Inverloch Surfside we would like to thank Peter Bates for his hard work and also employing his new assistant Paul Sherman organising a great day for all site holders.

GAS BBQ SAFETY TIPS

There are over 100 dangerous barbecue fires involving LP Gas cylinders every summer in Victoria. That's more than one barbecue fire every day of summer. Some of those fires turned into house fires, resulting in severe burns to arms and legs, and serious damage to family homes.

Stay safe: know the drill before you grill

Gas barbecues can be dangerous if not properly maintained. Gas escaping from your barbecue can lead to explosions or fires – LP Gas is highly flammable and easily ignited.

This brochure will help you maintain your LP Gas barbecue, and use it safely.

Know the drill – check for gas leaks

Follow these simple steps every time you use your barbecue.

- › Inspect the hose for signs of perishing or cracking – if the hose is cracked or has perished, don't use the BBQ until the hose has been replaced!
- › Make up a soapy water solution to check for leaks on your cylinder connection. Use any household detergent in a separate bottle with water – make sure you shake it up! Check for gas leaks by squirting the suds directly onto the connection between the hose and the cylinder.
 - › Bubbles will form if gas is escaping. If in doubt, turn off the gas and contact a licensed gasfitter.
 - › Leak test the connection to the cylinder every time you connect it or change cylinders – serious leaks are common and can be very dangerous.
 - › Check and leak test the connection every time you barbecue.
- › If no bubbles appear, you're safe to cook.

What to do if you see bubbles:

- › Switch off the gas immediately
- › Re-check the hose to make sure it hasn't perished
- › Re-check connections to make sure they are tight – get into the habit of doing this regularly
- › Check that the O ring on the connection hasn't perished
- › Check the gas cylinder for damage
- › Re-test with soapy water, and if bubbles still form turn off the gas and contact a licensed gasfitter.

i Tips

Get into the habit of doing a soapy water check. Know the drill before you grill, and make it a regular habit. You can't refill a LP Gas cylinder if it hasn't been tested for over 10 years, or if the cylinder has been damaged. Always exchange LP Gas cylinders at a reputable supplier.

Check the Inverloch Surfside park map for the locations of fire extinguishers, fire hose reels, fire hydrants and the fire blanket.

All sites must have a working smoke alarm, fire extinguisher and a fire blanket.

Storing and transporting LP Gas cylinders

Remember to close LP Gas cylinder valves whenever they are not in use, particularly when they are being transported.

Also, ensure that cylinders are securely restrained when transporting – use a container such as a milk box to keep the LPG bottle upright and steady in your vehicle, and make sure that there is good ventilation.
